Model No.	Capacity	Parameter	Remark
TE11	15ml	27mm*104.5mm	For essence, serum

This [dropper bottle](#) is designed with a small window, people can see the formula amount inside. When they push the button, they can also control per dosage well.

We also recommend that skincare brand will have some vitamin C or naturally effective plant components in their brand. If your formulas get colors, then this product will look more beautiful.

In our main pictures, you can find they are injected in white or black, the last one is plated in shiny silver.

Of course, we support more private service to the color and printing.
